LIST OF FIGURES AND TABLES

Figu	res		
	Figure 4.1	Variations in Northwest Precipitation and Hydro Generation	4-4
	Figure 4.2	Washington Generation Additions and Retirements	4-5
	Figure 4.3	Northwest Power Pool Net Firm Transfers, 1998-2001	4-6
	Figure 4.4	Monthly Average Natural Gas Spot Prices	4-7
	Figure 4.5	Monthly Spot Market Power Prices at Mid-Columbia	4-8
	Figure 4.6	Daily Spot Market On-Peak Firm Electricity Prices at Mid-Columbia	4-8
	Figure 4.7	Washington State Electricity Consumption and Mid-Columbia Volumes Traded	4-9
	Figure 4.8	Washington Retail Electricity Prices by Sector	4-11
	Figure 4.9	Washington Retail Natural Gas Prices by Sector	4-12
	Figure 4.10	Energy Expenditures as a Fraction of Household Income	4-15
	Figure 4.11	Washington Historical Electricity Consumption by Sector	4-18
	Figure 4.12	Washington Monthly Electricity Retail Sales by Sector	4-19
	Figure 4.13	Electricity Expenditures per Dollar of Washington Gross State Product	4-20
	Figure 4.14	Energy Intensity: Electricity Consumption and Employment	4-21
	Figure 4.15	Washington Historical Natural Gas Consumption by Sector	4-22
	i iguic 1 . 13	Washington Finatorical Natural Cas Consumption by Octoor	
	Figure 4.16	Washington Natural Gas Deliveries to Electric Power Generators	
	•		4-23
	Figure 4.16	Washington Natural Gas Deliveries to Electric Power Generators	4-23 4-25
	Figure 4.16 Figure 4.17	Washington Natural Gas Deliveries to Electric Power Generators	4-23 4-25 4-26
	Figure 4.16 Figure 4.17 Figure 4.18	Washington Natural Gas Deliveries to Electric Power Generators	4-23 4-25 4-26
	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix	4-23 4-25 4-26 4-27
	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix	4-23 4-25 4-26 4-27 4-28
	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical)	4-23 4-25 4-26 4-27 4-28 4-28
	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical) Bonneville Power Administration Transmission Line Construction	4-234-254-264-274-284-284-29
	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22 Figure 4.23	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical) Bonneville Power Administration Transmission Line Construction Carbon Dioxide Emissions from Energy Use by Source	4-234-254-264-274-284-284-294-31
Table	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22 Figure 4.22 Figure 4.23 Figure 4.24 Figure 4.25	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical) Bonneville Power Administration Transmission Line Construction Carbon Dioxide Emissions from Energy Use by Source Washington Annual Savings for Electric Efficiency	4-234-254-264-274-284-284-294-30
Table	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22 Figure 4.22 Figure 4.23 Figure 4.24 Figure 4.25	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical) Bonneville Power Administration Transmission Line Construction Carbon Dioxide Emissions from Energy Use by Source Washington Annual Savings for Electric Efficiency	4-234-254-264-274-284-284-294-314-32
Table	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22 Figure 4.22 Figure 4.23 Figure 4.24 Figure 4.25	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership Washington Electricity Sales in 2000 by Class of Ownership Washington's Existing Generation Fuel Mix New Generation Mix Existing and New Generation Fuel Mix (Hypothetical) Bonneville Power Administration Transmission Line Construction Carbon Dioxide Emissions from Energy Use by Source Washington Annual Savings for Electric Efficiency Electricity Consumption in Washington from Renewable Sources	4-234-254-264-274-284-284-294-314-32
Table	Figure 4.16 Figure 4.17 Figure 4.18 Figure 4.19 Figure 4.20 Figure 4.21 Figure 4.22 Figure 4.23 Figure 4.24 Figure 4.25	Washington Natural Gas Deliveries to Electric Power Generators Washington Electric Utility Customer Share in 2000 by Class of Ownership	4-234-254-264-274-284-284-294-314-314-32
